Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claims 1-31 have been considered. An Election of Species Requirement is present.

Election/Restrictions

5 The application contains claims directed to three patentably distinct species which differ based on how storage is accomplished. The three patentably distinct species are 1) a data processing apparatus wherein storage is internal (Figs 1-4); 2) a data processing apparatus wherein storage is internal and external via a network file system and an external data recording/reproducing apparatus attached via a network (Fig 5); and 3) a data processing apparatus wherein storage is internal and external via a data
10 recording/reproducing apparatus attached to the outside of the data processing apparatus via a physical connection (Figs 6-7). Species 1) also incorporates the use of a data management table.

 Within the three species a subspecies also exists. In subspecies a), enciphering is performed in accordance with having a cryptographic attribute determined for each file or folder containing the contents and enciphering the contents at *each file or folder* upon storing the contents. In subspecies b),
15 enciphering is performed in accordance with enciphering the file system as a *whole* upon storing the contents.

 The generic claims are 1,2,27,30, and 31. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits. A complete response to the instant requirement must include an election of species (1,2, or 3), an election of an accompanying subspecies (a or b), and a
20 listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

 Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an
25 allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 2137

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Conclusion

This action is made non-final. A shortened statutory period for response is set to expire one month (not less than 30 days) from the mail date of this letter. Failure to respond within the period for response will result in ABANDONMENT of the application (see 35 U.S.C. 133, MPEP 710.02, 710.02(b)).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Schubert whose telephone number is (571) 272-4239. The examiner can normally be reached on M-F 7:30-6:00.
